PROFILE

Investment data professional in Davy's Portfolio Insights team, helping maintain the quality of holdings, performance, exposure and risk data across a UCITS fund range and segregated portfolios. Two years on Davy's Risk & Compliance Graduate Programme across Financial Risk and Capital Markets Compliance. Builds automation in SQL, Python, Power BI and Power Automate, and AI-assisted workflows with Claude. QFA accredited; BSc Business Studies with Data Analytics (2.1), DCU.

EXPERIENCE

Investment Data & Reporting Specialist · Portfolio Insights, Davy Aug 2026 – Present

- Help maintain the quality of holdings, performance, exposure and risk data across UCITS funds and segregated portfolios
- Data feeds client reporting, board and ManCo packs, and SAA reviews; work alongside portfolio managers and quants
- Day-to-day tools: Jacobi, Snowflake, FactSet and Excel; automate validation and reporting with SQL, Python and Claude

Risk & Compliance Graduate Programme · Davy Sep 2024 – Aug 2026

Rotation 2: Financial Risk Sep 2025 – Aug 2026

- Compiled daily VaR reporting across equity and fixed income books for senior management
- Produced and maintained risk reporting packs for governance forums; took minutes at the ERM and other governance forums
- Monitored private equity positions, liquidity risk and capital markets exposure limits
- Conducted VaR backtesting and stress testing and presented findings at the Financial Risk Committee
- Built Power Query automation consolidating multi-source reports, and a country-ratings web scraper aligning policy limits with sovereign credit data

Rotation 1: Capital Markets Compliance Sep 2024 – Sep 2025

- Contributed to a systems integration for regulatory (IAF/SEAR) attestations that saved the firm €55k
- Monitored trading for market abuse and insider dealing in line with MAR obligations
- Supported annual ESMA and CBI regulatory submissions
- Built a Power Automate flow monitoring Takeover Panel announcements to trigger immediate trade-restriction alerts
- Led communications surveillance monitoring and recalibration of surveillance parameters
- Built automated MI reports in Power BI for compliance and management reporting

Office Manager · Apollo Language Centre Jun 2024 – Aug 2024

- Managed daily operations for 200+ students, streamlining bookings, scheduling and operational data

Interpreter · Accord Language Translation Service Jul 2021 – Jun 2023

- Romanian–English interpretation across legal, medical and business settings

EDUCATION & QUALIFICATIONS

Qualified Financial Adviser (QFA) · Institute of Banking (IOB) 2025

Professional Diploma in Financial Advice: life assurance, pensions, investments, loans and regulation.

BSc Business Studies with Data Analytics, 2.1 Honours · Dublin City University 2021 – 2024

Modules: Python, SQL, Data Mining, Predictive Analysis, Financial Management. Class Representative, DCU Students' Union.
